COMMERCIAL RED ANGUS

**100 OPEN HEIFERS**  
COMMERCIAL BLACK ANGUS

## *Welcome to our Annual Production Sale!*

*Wow, what a year to be in the cattle business. With cattle prices at an all time high and inventory still shrinking, the future looks bright. We would like to say thank you to all of our customers for the confidence you have in our program. We greatly appreciate the support and loyalty you have placed in our herd. At Sandhill Red Angus we stay dedicated to producing the best genetics possible. We talk about consistency all the time here at Sandhill Red Angus. We*

*believe that the biggest contribution to our consistency is our females. They must be long bodied, huge middled, and stay functional. For us, being functional means having a perfect udder, good feet, and breeding up on time every year while raising a big calf.*

*I would like to take this time to thank all of our friends, neighbors, and family that help us. We are very blessed to be surrounded by such a great community, and have the opportunity to serve our customers and the Red Angus breed.*

### *Andrew Johnson & Family*

*5175 Road 1026, Froid, Montana 59226*

*sandhill\_reds@yahoo.com*

*Andrew Johnson (406) 489-3773*

*McKenzie Johnson (406) 489-0542*

### *Welcome from Shane Castle*

*It's been a great pleasure to tour through and evaluate the program at Froid of Sandhill Red Angus and to right away notice and appreciate the rigors of which the herd must adhere to for their survival. For the betterment of breeding and genetics, having a seed-stock outfit put the cattle through the paces year round can only garner any ranchers respect. Having mother*

*nature apply pressure undoubtedly will reveal who is earning their keep and who isn't. With keeping their foot to the floor and no reason to let up on the cows, yet continue to jump the hurdles, we will find out who has what it takes to reach the finish line. Breeding cattle isn't a difficult task for a cow. Producing a live calf, weaning a good healthy calf, and re-breeding in a limited time will let the wheat sort itself from the chaff. It is clearly evident that this is the case for Andrew and McKenzie! By incorporating the genetics which are clearing their hurdles, you will notice a number of calves sired by their own home raised calves. Simply plugging in the good cows as many times as you can is certainly a recipe for genetic progress and breed betterment, ultimately landing on the real goal of being profitable! Feel welcome to direct any questions you may have our way, we look forward to hearing from you!*

Shane Castle, Castlerock Marketing (306) 741-7485

**VIDEOS OF EVERY LOT @ [WWW.FRONTIERLIVESALE.COM](http://WWW.FRONTIERLIVESALE.COM)**

#### SEMEN INTEREST

Sandhill Red Angus will retain 50% semen interest in all bulls selling.

#### HEALTH

All bulls & females are in good health. They are up date with wormer & vaccinations advised by High Plains Veterinary.

## **LOT 150 COMMERCIAL RED ANGUS BRED HEIFERS**

**1A**

These big broody bred heifers are coming right off the top of our replacement program and are set to calve April 1<sup>st</sup> for 30 days. If you are looking for fertile females that will have beautiful udders and stay sound footed, take a look here. These heifers are bred to low birth weight Sandhill Red Angus bulls. These heifers will raise a great set of calves for years to come. You will drive the wheels off your outfit to find a better set of bred heifers.

**LOT 150 COMMERCIAL RED ANGUS YEARLING HEIFERS**

**2A**

This is a first at Sandhill Red Angus. We are offering the very top end of our heifer calves. Heifers of this quality and kind are about impossible to find. These heifers will be solid red, 100% home raised, and have no brands on them. This will be the very top end of heifers out of over 500.

**LOT 100 COMMERCIAL BLACK ANGUS YEARLING HEIFERS**

**2B**

This is a first at Sandhill Red Angus. We are offering The very top end of our heifer calves. These heifers will be solid black, 100% home raised, and have no brands on them. This will be the very top end of heifers out of our black commercial herd. With the cow herd still shrinking and many heifers still going to feed, be on the forefront and take advantage of a very rare opportunity.

A stylish bull that stands down on an extremely wide base. We believe that muscle shape and base width needs more attention within the breed. His dam G97 is a larger framed cow that flat produces.

HEIFER BULL

*The cattle industry lost a great man this past summer. Dunn O'Connor was known far and wide. His ability to strike up a conversation and become friends was simply amazing. Dunn loved his family deeply. He enjoyed visiting with friends and never met a stranger. I truly miss those calls early in the morning with the simple greeting, "O'Connor here". Ride Easy my Friend, you are missed by many!*

# Research Validates Red Angus as Most-Favored Female

Ranchers across the country have long recognized the value of Red Angus females as the foundation of a profitable cowherd. Now, independent research validates those years of cattle production experience with tangible data proving the Red Angus heifer's worth.

## Research Confirmation

Esther McCabe, et al., of Kansas State University, led a study that confirmed Red Angus are the most-favored female in the industry. McCabe and her team compiled five years' worth of pricing data from Superior Livestock Auction, comparing 13,804 lots of heifer calves totaling over 1.2 million head that sold in 116 video auctions.

The research team evaluated the effects of independent variables on the sale price of heifer calves that fell into six different breed composition groups: English, English crosses, English-Continental crosses, Black Angus-sired out of dams with no Brahman influence, Red Angus-sired out of dams with no Brahman influence, and Brahman-influenced.

They deduced that Red Angus-sired heifer calves bring \$5 to \$9 more per hundredweight than all other breed types.

## Rancher Trusted

While market research validates the price advantage of Red Angus heifers, ranchers have tested and trusted her worth on the range for years. Red Angus females are desirable as replacement heifers because they mature into productive mother cows that reward producers with extra dollars in their pockets on sale day.

Red Angus cows have gained ranchers' trust as a complete package through fertility, fleshing ability, good disposition, longevity and excellent overall production. They produce feeder calves that earn premiums in the yard and on the rail through docility, feed efficiency, conversion and carcass merit.

Over the years, stockmen have voted with their checkbooks, purchasing heifers they know will bring profitability to their ranching businesses – and Red Angus females are their most-favored choice. ■

Independent research studying five years of Superior Livestock Auction data confirms the value of Red Angus replacement females.

## Red Angus Stockyard

List or locate quality Red Angus replacement females at [stockyard.redangus.org](http://stockyard.redangus.org). Over 20,000 head of cattle are sold each year through the Red Angus Stockyard.

## FeMail

An electronic tool to help locate or market ranch-tested replacements. Market your open heifers, bred heifers or cows, or cow-calf pairs. FeMails are designed for offerings of 25 head or more to complement listings on the Red Angus Stockyard.

## Breed and Gender Interact to Affect the Sale Price of Beef Heifer Calves\*

\* McCabe, et al., 2016. Breed and gender interact to affect the sale price of beef calves sold through video auctions from 2010 through 2014. J. Animal Science, Volume 94, Supplement 2, pp 28.

<sup>abcd</sup> Means with unlike superscripts differ (P<0.05).

**PAYBACK**<sup>®</sup>

**Feed that supports healthy herds**

## Payback<sup>®</sup> feeds support productive, profitable livestock feeding programs.

Our Payback Ultramin Elite<sup>™</sup> mineral, Payback Bull Challenger and Payback Head Start feeds now contain the full feeding rate of Zinpro<sup>®</sup> Availa<sup>®</sup> 4, a combination of highly available zinc, copper, manganese and cobalt, which contributes to the overall health and reproductive performance of beef cattle.

### Payback<sup>®</sup> mineral benefits:

#### Heifers

- Improved growth
- Improved ovulation
- Better conception rates

#### Cows

- Tighter calving intervals
- Improved conception rates

#### Bulls

- Earlier puberty
- Enhanced semen quality
- Improved foot health

#### Healthy Calves

- Improved colostrum quality
- Better vaccination response
- Lower incidence of scours

#### Heavier calves

- Increased milk production
- Tighter calving intervals
- Greater weaning weights

**AVAILA 4**

### Bull Challenger benefits:

- High fiber source for muscle expression
- Zinpro Availa 4 mineral package
- Proven formulation for genetic potential
